Contest Lip Colour

Below are three Rose lip colours that Karen has sourced. All three of these lip colours will work for us. It's entirely your choice!

Picture 1 is **Revlon Colorstay matte light crayon**. It is very creamy lovely to put on and application to the cheeks is very easy! It is also the most expensive at \$17.49. I did look for lipsticks on sale, but they only put certain ones on at different times. This lip colour did not show a name in plain sight but here are details.

- **Revlon 006 Lift off. Envolee** (right on bar code sticker) very tiny writing

Picture 2 is a **Cover girl Exhibitionist cream** and is on sale for \$7.99. This also went on very creamy and smooth applied well to cheeks, and the price is amazing.

- **Cover Girl 325 (Spell bound)**

Picture 3 is a **Maybelline Super stay Vinyl ink**. It is on sale at \$11.99. This is a gloss, and it is a super stain colour; you'll need a good make remover to take it off as it is what it's states, a vinyl ink! It bleeds easy! It is difficult to apply to cheeks, it's sticky being a gloss and although I love the colour this is my least favourite of all thee. However, you may like it!

- **Maybelline 45 Capricious**

All three colours are acceptable; #2 and #3 are almost identical but may look slightly different on each individual lip. I don't want to box people in and so I gave a choice of all three. Happy shopping ladies.

I got these at a **Rexall pharmacy**, but I imagine they are sold in any pharmacy.
